Contents

Preface vii

FUNDAMENTALS

E. Kramp 3
Charge generation of photographic film by roller contact

V.M. Cabrera M., S. Lundquist, V. Cooray 17
On the physical properties of discharges in sand under lightning impulses

D. Hu, B. Makin 29
Oscillating characteristics of charged levitated particles under external electric field in a quadrupole levitation trap

S.N. Fedosov, A.E. Sergeeva 39
Model of polarization build-up during corona charging of ferroelectric polymers

V.M. Cabrera M. 47
Photographic investigations of electric discharges in sandy media

E. Motyl 57
Charging of polypropylene foils in corona triode system

K. Asano, K. Yatsuzuka, Y. Higashiyama 65
The motion of charged metal particles within parallel and tilted electrodes

HAZARDS

Plenary Lecture
H. Krämer 77
Safety aspects of electrostatic paint, powder and flock spraying processes

---

Y. Tabata, T. Suzuki 93
Safety control of incendiary discharge occurring from active electrostatic eliminator

U. von Pidoll, H. Krämer 103
Minimum ignition energies of coating powders for the electrostatic powder coating process

K. Schwenzfeuer, M. Glor
Tests to determine the ignition of dust by brush discharges 115

M. Glor, B. Maurer
Ignition tests with discharges from bulked polymeric granules in silos (cone discharges) 123

M.A. Nelson, R.L. Rogers, B.P. Gilmartin
Anti static mechanisms associated with FIBC fabrics containing conductive fibres 135

P. Tolson, R. Tomlinson
Explosion of a lead/acid battery due to electrostatic charging 149

H. Krämer, H. Fröchtenigt
Electrostatic charging of spray cans 159

POWDERS and SOLIDS

Plenary Lecture
A.G. Bailey
Charging of solids and powders 167

J. Taillet
Elimination of static charges in the processing of bulk material 181

S. Masuda, S. Hosokawa
Novel charge elimination method in powder handling and transport using surface discharge 191

Y. Higashiyama, G.S.P. Castle, I.I. Inculet, J.D. Brown
The effect of an externally added charge control agent on contact charging between polymers 203

R. Baur, H.-T. Macholdt
Charge control agents for triboelectric (friction) charging 213

M. Nifuku, E. Kiss, M. Kohno
A study on the dispersion of powder under the influence of electric charge 223

LIQUIDS

S.H. Wang, J.S. Chang, A.A. Berezin
Atomization characteristics of electrohydrodynamic limestone-water slurry spray 235

M. Aoyama, T. Oda, M. Ogihara, Y. Ikegami, S. Masuda
Electrodynamical control of bubbles in dielectric liquid using a non-uniform travelling field 247

P. Atten 259
Electrocoalescence of water droplets in an insulating liquid

MODELLING and MEASURING TECHNIQUES

J.N. Chubb, P. Malinverni 273
Comparative studies on methods of charge decay measurement

A. Kuttler, M. Glor 285
Modelling of the electric field in silos filled with polymeric granules

L. Dascalescu, M. Mihailescu 297
Mathematical modelling of conductive particle movement in d.c. corona fields

J.N. Chubb, C. Hancox, J. Harbour 307
Design and performance of new instrumentation to measure the shielding capabilities of materials against electrostatic discharges

E. Kramp, J.P. Ansermet 315
The AC field window method - an unequivocal technique to characterize the static behaviour of photographic films

S.N. Fedosov, A.E. Sergeeva 327
Measuring of electrical relaxation parameters in polar polymer dielectrics

L. Ptasiński, A. Komarzewski 335
Charge meter of electrostatic discharges

V. Cooray 343
A model for subsequent return strokes

V.S. Vasilenko, Y.O. Roizin 355
Novel techniques of charge centroid evaluation in dielectric layers

APPLICATIONS

Plenary Lecture
I. Berta 365
Static control: modelling and application

K. Adamiak, I.I. Inculet, G.S.P. Castle 381
The control of corona current distribution using shaped electrodes

W. Kleber 393
Electrostatic powder gun design

R. Morar, A. Iuga, L. Dascalescu, A. Samuila 403
Factors which influence the insulation-metal electroseparation

E.P. Maximuc, M.K. Bologa, Y.N. Gordeev 413
The influence of electric fields on the intensity of rectification

V.L. Neamtu, A. Iuga, R. Morar, I. Suarasan, L. Dascalescu 423
Influence of high-voltage polarity on insulation-metal electroseparation

W. Lehr, W. Hiller 433
Electrostatic atomization of liquid hydrocarbons

Author Index 441
